Dario U Oscós Coria is a legal counsel and practitioner specialising in insolvency, restructuring, creditor rights, litigation, arbitration and mergers & acquisitions.

Oscós Abogados is a high-profile boutique practice that specialises in both domestic and international litigation. The firm has rich experience and technical expertise in handling insolvency, restructuring, creditor's rights, litigation, arbitration, product liability and bankruptcy within a wide variety of industries that include banking, securities, energy, oil, gas, construction, industrial property, copyright, labor, torts and finance to telecommunications.

Oscós Abogados has been involved in major insolvency, litigation and arbitration cases in Mexico in the 21st century. The firm has built up a strong reputation for delivering high-quality results in a discreet and timely fashion.

The firm set a milestone by successfully

adjudicating the first two cases in the world that recognised and fully enforced another country's insolvency proceedings under the UNCITRAL Model Law on Cross-Border Insolvency (adopted, inter alia, by USA, UK, Canada and Japan). As the Model Law (EU Insolvency Cross Border Statute) becomes increasingly adopted by major countries, Oscós Abogados will refer to its familiarity and knowledge of international insolvency to ensure clients receive the best possible legal solutions.

The firm successfully concluded a complex RICO (Racketeer Influenced and Corrupt Organizations Act) action proceeding with cross-border insolvency and criminal implications in USA, UK and Mexico.

The firm, on behalf of one of the creditor trust indentures, pursued the Iusacell concurso mercantil up to successful cross border reorganisation plan.

In the Vitro case, the firm, on behalf of one dissenting creditor trust indentures, strongly co-litigated the Vitro's concurso mercantil up to a successfully cross border final settlement and release of legal actions pending decision.

The Vitro case has been one of the soundest cases ever in Mexican insolvency history and caused a major revision of the current insolvency statute Ley de Concursos Mercantiles. The bill amendment took most of the experiences from Vitro, has been enacted and is currently in effect (Official Daily Gazette of the Federation January 10, 2014).
